Introduction date	<=1995
End date	>=1999
Type	Scient
Last update date	2010_06_27
Programmable	Y
RAM size	8KB (7KB available)
ROM size	128KB
Number of functions	Scient
Alpha capabilities	Y
Number of keys	50
Display type	LCD
Number of digits on display	16x8
Graphical (X x Y)	64x48
Extention(s)	N
Printer	N
Saving	mem
Date or clock capabilities	N
Microprocessor	Toshiba T6M53, SRM2264, LH5359, Display: T6879
Functions list	Scientific
Size (length x width x thickness)	162x72x15

Weight	
Batteries	2xCR2032 (3Vcell)
External power	N
Power consumption	
Twin	
Made in	Taiwan
Link(s)	Datamath ref.

Page displayed 5004 times since 2008-06-04.
