

Hewlett Packard HP-21

Serial Number	1508S26367: 1975, 8th week, Singapore (bought 31.7.1975)
Accessories	Pouch
	Power supply (switchable 110/220V, part no. 82024A)
	Manual: HP-21 Bedienungs-Handbuch (German)
	Battery holder for rechargeable or regular AA batteries
	Manual: HP-21 Owner's Manual, July 1975, bound printout from the MoHPC CD-ROM
Condition	Excellent!
Repairs	14.10.2002 Swapped the display with the HP-22 one. Now one of the segments is broken in the HP-21. 26.2.2003 Got another HP-25C and removed its display module. Now the HP-21 is fully functional again. 12.3.2003 Cut off the connector from the power supply and attached a small headphone plug so that it can be used with a regular off-the-shelf DC power supply.
Acquired	22.6.2002

Comment	HP's seventh calculator and first Woodstock model. Extremely simple, a real beginners model. However, the Woodstocks have their own charme in that they're very small and lightweight. Their shape is unrivalled and perfectly fits the palm of a hand.
