Période de fabrication : -
Fabricant : fabricant non renseigné
Domaines : Informatique et Communication
Sous-domaines : Ordinateurs, Ordinateurs
Organisme : ACONIT
Ville : Grenoble
Modèle :
Matériaux : Carton, Papier

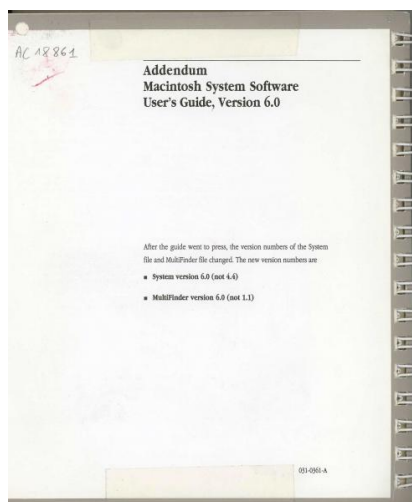

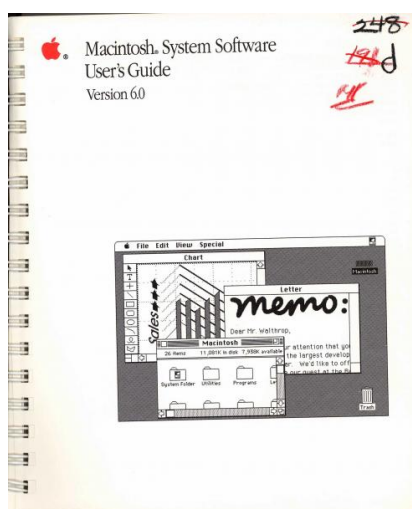

Description

Titre traduit : Le Guide de l'utilisateur du logiciel système Macintosh version 6.0

Le Guide de l'utilisateur du Macintosh, système 6.0, se présente sous la forme d'un livre classeur avec une spirale métallique pour relier les pages et un volet cartonné. Il comprend une préface, et les chapitres Exercice : initiation au Macintosh, Techniques de base, Travail sur le bureau, Menus du Finder, Accessoires de bureau, Claviers, Disquettes 3,5 pouces, Disques durs, Disques de démarrage, MultiFinder et les Annexes A, B, C.

Utilisation

Ce manuel permet de prendre en main l'environnement logiciel de la version 6.0. Il peut être installé sur un Macintosh Plus, un Macintosh SE ou un Macintosh II et est l'évolution de la version 4.3.

MACINTOSH

Contents

Preface xi

- About this manual xii
- Using the chapters in this manual xii
- About the other manuals xiv
- Using the manuals xiv
- For the beginner xiv
- For the experienced user xv

1 Tutorial: Learning Macintosh Basics 1

- Getting ready 2
 - Macintosh Plus 2
 - Macintosh SE 2
 - Macintosh II 2
- Starting the tutorial 3
- How to use this manual 5
- What you'll learn 6
- Mouse basics 6
 - Moving the pointer by moving the mouse 7
 - Selecting an icon by clicking 8
 - Dragging an icon 9
 - What you've learned about the mouse 10

ii

Choosing commands from menus 11

- Selecting what you want to work with 11
- Looking at a menu 11
- Choosing a command from a menu 13
- What you've learned about choosing commands 13

Working with windows 14

- Changing the size of a window 15
- Zooming a window 16
- Moving a window 17
- Opening another icon to see another window 18
 - Overlapping windows 18
- Making a window active 19
- Opening other icons 20
- Closing a window 22
- Using the scroll bars to see more 24
- What you've learned about working with windows 25

Using applications 26

- Starting an application 26
- Creating a document 28
- Naming your work and saving it on a disk 29
- Editing text 32
- Saving a document with a different name 35
- What you've learned about using applications 36

Organizing documents 37

- Using folders 37
- Nesting folders 40
- Moving through the hierarchical file system within an application 43
- Opening a document within an application 46
- Saving a document in the hierarchical file system 47
- Renaming documents and folders 49
- Starting your own work 50

2 Basic Macintosh Techniques 51

- What's in this chapter? 52
- Using the mouse 52
 - Selection 52
 - Clicking 53
 - Double-clicking 54
 - Shift-clicking 55
 - Pressing 56
 - Dragging 57
 - To cancel dragging 57
 - Selecting grouped icons by dragging 58

iv Contents

Using windows	60
Activating a window	61
Moving a window	61
Resizing a window	62
Zooming a window	63
Closing a window	65
Scrolling a window	66
To scroll line by line	67
To scroll by the windowful	68
To scroll quickly to any part of a directory or document	69
Editing text	70
Inserting text	70
Selecting text	71
Moving text	72
To cut and paste	72
To copy and paste	73
Replacing text	74
Removing text	74
TeachText and Read Me Documents	74
3 Working With the Finder Desktop	77
What's in this chapter?	78
The desktop and the Finder	78
What the Finder manages	79
Who controls the Finder?	80
Working with icons	80
Renaming an icon	80
Another way to rename documents	82
Duplicating documents, folders, or applications	83
Moving a document, folder, or application to a new place on the same disk	84
Copying a document, folder, or application to a different disk	84
Getting information about icons	86
Using the Get Info command	87
Locking a document or application	88
Unlocking a document or application	89
Working with folders, directories, and the hierarchical file system	89
Folders	89
Directories	90
The hierarchical file system	91
Creating a new folder	92
Moving a document, folder, or application from one folder to another	93

Working with documents and applications	94
Creating a document by opening an application	94
Creating a document with the New command in an application	95
Opening an existing document from the Finder	96
Directory dialog boxes	97
Opening an existing document from within an application	98
Using the Save command	101
Using the Save As command	101
Where does your information go?	102
Printing	105
Choosing a printer	105
Using Page Setup with LaserWriter printers	106
Printing a document from within the Finder	108
Printing a group of documents from within the Finder	108
Printing a document from within an application	109
Printing the directory of a disk or folder	109
Using the Trash	111
Removing a document, folder, or application	112
Recovering an item from the Trash	112
4 Finder Menu Commands	113
What's in this chapter?	114
The Apple menu	114
About the Finder	114
Desk accessories	115
The File menu	115
The Edit menu	118
The View menu	119
The Special menu	120
The Color menu	122
5 Desk Accessories	123
What's in this chapter?	124
Where do desk accessories come from?	124
The Alarm Clock	125
The Calculator	127
The Chooser	127
Using the Chooser with a directly connected Apple printer	128
Using the Chooser with devices on AppleTalk	130
Connecting or disconnecting AppleTalk	132
Choosing devices on other AppleTalk networks	133

The Control Panel	133
Using the General Control Panel	134
To set Desktop Pattern (monochrome monitor)	135
To set Desktop Pattern (color monitor)	135
To set Rate of Insertion Point Blinking	137
To set Menu Blinking	137
To set the Time	137
To set the Date	137
To use the RAM cache	138
To set Speaker Volume	139
Using the Color Control Panel	139
To change highlight color	139
Using the Keyboard Control Panel	142
To set Key Repeat Rate	142
To set Delay Until Repeat	142
Using the Monitors Control Panel	143
To set monitor status for a single monitor	143
To set monitor status for multiple monitors	144
Using the Mouse Control Panel	148
To set Mouse Tracking	148
To set Double-Click Speed	149
Using the Sound Control Panel	149
Using the Startup Device Control Panel	150
Key Caps	150
Using Key Caps	151
The Scrapbook	152
Adding an image to the Scrapbook	152
Removing an image from the Scrapbook	153
Moving an image from the Scrapbook to a document	153
Duplicating a Scrapbook file	154

6 Keyboards 155

What's in this chapter?	157
Macintosh Plus Keyboard	158
Apple Keyboard	160
Apple Extended Keyboard	162
Optional characters	164
Typing accented characters	165
Easy Access	166
Using sticky keys	166
Using mouse keys	168
Menu command shortcuts	169
Keyboard shortcuts in the Finder	170

7 3.5-inch Disk 171	
What's in this chapter?	172
Different capacities and different formats	172
Preparing 3.5-inch disks for use	173
Initializing both sides of an 800K disk	174
Initializing a disk for use in a 400K disk drive	175
Reinitializing disks	179
Ejecting 3.5-inch disks	180
Using the Eject command in the Finder	180
Dragging a 3.5-inch disk to the Trash	182
Other ways to eject 3.5-inch disks	184
Making copies of 3.5-inch disks	185
Copying a 3.5-inch disk to a hard disk	185
Copying a 3.5-inch disk to another 3.5-inch disk	186
To copy with a hard disk as intermediary	186
To copy with two 3.5-inch disk drives and no hard disk	189
If you have a single 3.5-inch disk drive	190
Protecting the contents of 3.5-inch disks	190
Locking a 3.5-inch disk	191
8 Hard Disks 193	
What's in this chapter?	194
Preparing a SCSI hard disk for use	194
Initializing a SCSI hard disk	195
Reinitializing a SCSI hard disk	199
Other Apple HD SC Setup functions	199
Update	199
Partition	200
Test	200
Drive	201
Getting the most out of your hard disk	201
9 Startup Disks 203	
What's in this chapter?	204
What is a startup disk?	204
What's inside a System Folder?	205
What else does a startup disk do?	205
If one System Folder is good, will two be better?	206
Hard versus ROM startup disks?	207
Install System files	207
Before you update existing startup disks	208

- Creating or updating a startup disk 208
 - For hard disk users 209
- Using the Installer 209
 - To install *Macintosh System Tools* 210
 - To install *Macintosh Printing Tools* 212
- If you don't have a hard disk 214
- Scanning order for startup disks 215
- Switching startup disks 215
- Customizing startup disks 216
- To make a startup disk a nonstartup disk 217
- Reclaiming space on an 800K startup disk 217

10 MultiFinder 219

- What is MultiFinder? 220
 - What you should already know 220
 - System requirements 221
 - Finding out how much memory you have 221
- What's in this chapter? 222
- How to use this chapter 222
- Turning MultiFinder on 223
- Turning MultiFinder off 224
- A sample session 225
 - What you'll work with 225
 - What you'll learn 225
 - The Finder desktop 226
 - Starting applications 226
 - The first way to move around: the Apple menu 226
 - The second way to move around: windows 227
 - Applications that use the whole desktop 228
 - The third way to move around: dimmed application icons 229
 - The fourth way to move around: small icon in the menu bar 229
 - Desk accessories 230
- Background Printing 231
 - How Background Printing works 231
 - Making sure Background Printing is on 232
 - PrintMonitor 233
 - The PrintMonitor window 234
 - The Preferences dialog box 236
 - Stop Printing/Resume Printing 238

- Some technical points about memory 238
 - The Finder memory graph 239
 - Fragmented memory 240
 - Creating an out-of-memory block of memory 241
 - Changing application memory size in special situations 241
 - The Set Startup command 242
 - Using startup applications 244
 - Tips for working with MultiFinder 245

- Appendix A**
 - A History of Macintosh System Software** 247
 - System software for the Macintosh 512K 250
 - System software for the Macintosh 512K enhanced 251
 - System software for the Macintosh Plus 253
 - System software for the Macintosh SE and Macintosh II 255

- Appendix B**
 - Troubleshooting** 258
 - What's in this appendix? 259
 - General problems with the Macintosh 259
 - Problems with MultiFinder 266

- Index** 269
- Tell Apple card
